INTRODUCTION

LAST season we addressed our friends and clients from Mount Clemens, Mich. The Spring of 1921, however, saw us comfortably settled in Grand Rapids, Mich. We bought a farm 6 miles South of this city and commenced to plant our Glads without delay.

At the time we are writing this introduction (August) our fields are covered with an abundance of rich, deep green foliage and thousands of flowers promising a fine crop of bulbs. Although we have grown the beautiful *Gladiolus* for the last 17 years, we have never before seen a healthier looking crop than this summer. We seem to have found the right combination of soils, the same being a mixture of sandy soil and a little clay, with a gravel subsoil. Even "War", "Niagara", and "Golden Measure", which three are hard to please, look as vigorous as the rest.

We called it a great pleasure to welcome so many of you on our fields and herewith wish to assure you that anyone who is interested in charming flowers is welcome at our place any time.

This year we thought to show you some photographs of our new ones, together with a few of the Trade Kinds, presuming that you wished to see something more than a description. From now on we shall continue to display a number of Hybrids every year.

The elaborate, exacting toils of our Mr. Pieter Vos are bearing wonderful fruit. For the last 10 years he has devoted many a summer day to the great science of Hybridising *Gladioli*. We would like to show you the pure, dainty blossoms of "Maine", or the dark crimson bells of "Fair King", which he originated by crossing the strains of several Glads. A lady who saw "Radium" in full bloom exclaimed: "This surely is the most charming *Gladiolus* I have ever seen!"

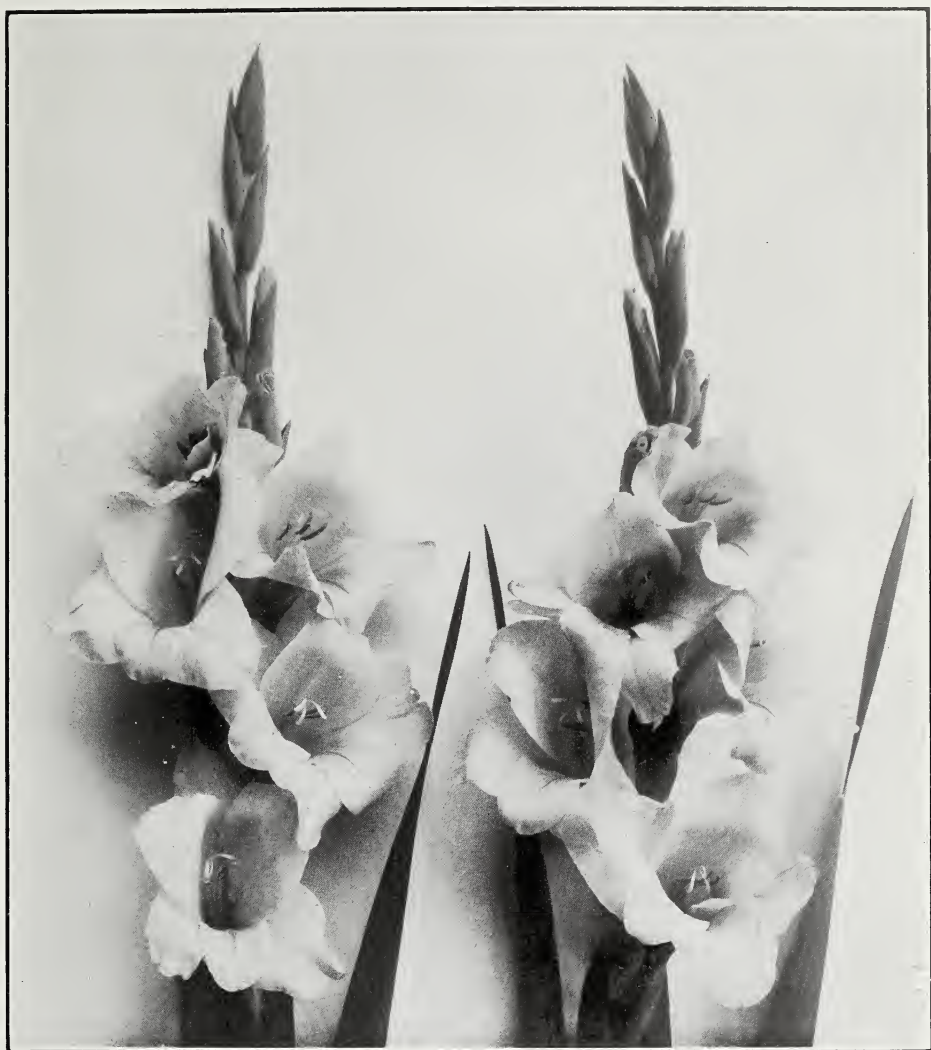

We are offering the Vos originations in a separate division of this catalog for your convenience.

The "Standards" are well represented, while you will see upon going through the entire list that we have the new and best from everywhere. In conclusion, there is an important factor in the *Gladiolus* Trade which we wish to emphasize, namely our 100 per cent guarantee as to trueness to name which goes with every package of bulbs bought from us. No class of bulbs is so difficult to keep True to name as the *Gladiolus* with its many bulblets. Only by keeping after the rogues every day during the blooming season, and doing this year after year, the results are that one's stock becomes true.

Therefore, if you have not thus far tried our service and Glads, we would ask you to do so this season. We are certain to satisfy you.

Respectfully yours,

PIETER VOS
GERRIT VOS

GLAD. LOVELINESS

How To Reach Our Farm

In Grand Rapids, drive out South Division Avenue about six miles. Turn to right the first road beyond the pavement. One mile west. We will be pleased to have you call on us when out this way.

GLAD. FLORA

Terms and Conditions of Sales

Prices f. o. b. Grand Rapids, Mich.

We pack Gladioli free from frost.

Packing free of charge.

All goods travel at risk of consignee.

All our Glads are guaranteed to be 100 per cent true to name.

Orders from unknown correspondents must be accompanied with cash or satisfactory references.

GLAD. LE MARECHAL FOCH

Three per cent discount for cash with order.

Two per cent discount 10 days from date of invoice.

Bills due 30 days from date of invoice.

Twenty-five Bulbs at 100 rates.

Two hundred fifty bulbs at 1000 rates.

When ordering less than 250 bulbs of a variety rated per 1000 add 10 per cent to the price quoted.

This rule holds also for orders of less than 25 bulbs of a variety rated per 100.

Please advise us how you wish your goods shipped.

GLAD. LOUISE

Important Notice

It is no secret that there was a great shortage of first and second size Gladioli last season. In addition to this fact we hear that most growers are complaining of crop failure because of the drought. A word to the wise: "Order early and get what you want!"

Upon request we will quote you special prices for large quantities.

Standard Varieties and Some That Are Recently Introduced to the Trade

Descriptive Price List

	1½" and up	1¼"-1½"	1"-1¼"	¾"-1"	½"-¾"	⅜"-½"	Bulblets
